

## Abraham Lincoln : A History, Volume II (Illustrated)

To write the life of this great American in such a way as to show his relations to the times in which he moved, the stupendous issues he controlled, the remarkable men by whom he was surrounded, has been the purpose which the authors have diligently pursued for many years. We can say nothing of the result of our labor; only those who have been similarly employed can appreciate the sense of inadequate performance with which we regard what we have accomplished. We claim for our work that we have devoted to it twenty years of almost unremitting assiduity; that we have neglected no means in our power to ascertain the truth; that we have rejected no authentic facts essential to a candid story; that we have had no theory to establish, no personal grudge to gratify, no unavowed objects to subserve. We have aimed to write a sufficiently full and absolutely honest history of a great man and a great time; and although we take it for granted that we have made mistakes, that we have fallen into such errors and inaccuracies as are unavoidable in so large a work, we claim there is not a line in all these volumes dictated by malice or unfairness.
