

# Algorithmic Learning Theory: 6th International Workshop, ALT 95, Fukuoka, Japan, October 18-20, 1995 - Proceedings

This book constitutes the refereed proceedings of the 6th International Workshop on Algorithmic Learning Theory, ALT 95, held in Fukuoka, Japan, in October 1995. The book contains 21 revised full papers selected from 46 submissions together with three invited contributions. It covers all current areas related to algorithmic learning theory, in particular the theory of machine learning, design and analysis of learning algorithms, computational logic aspects, inductive inference, learning via queries, artificial and biological neural network learning, pattern recognition, learning by analogy, statistical learning, inductive logic programming, robot learning, and gene analysis.
