

## Best Autocorrect Fails: Text messages that didnt mean to send

Best Autocorrect Fails - Text messages that didnt mean to send AutoCorrect takes words that you have misspelled and corrects it. For years, millions of people have used this great program. Especially since it is imbedded in all the new phones. Of course, there is a way to disable autocorrect if you really want to. However, not many people do. Why would they? It is just too hilarious when it happens!
