

Birth of the Cool

1950s West Coast style exuded cool from the smooth, hypnotic strains of a Miles Davis riff; Richard Neutras elegant, modernist residences; the hard-edged paintings of Helen Lundeberg and Karl Benjamin. This richly illustrated volume casts a fresh eye on Fifties West Coast style with illuminating commentary from a variety of perspectives. Designed to echo the period it celebrates, this catalogue explores modernist innovations in art, architecture, design, film and music. Prominent cultural critics write on an array of topics - Thomas Hine about the culture of cool; Elizabeth Smith on domestic aspects of the periods architecture; Francis Colpitt on hard-edged abstract painting; Dave Hickey on jazz; Bruce Jenkins on the crossover between animation and experimental film. The result is a multi-faceted exploration of the 1950s West Coast zeitgeist in all its colour, creativity, and cool.
