

The Olive Season

This is the best-selling sequel to *The Olive Farm*. To gain the coveted AOC rating, Carol and her new husband need to plant 250 olive trees on their Provencal farm. Now, pregnant and often unassisted, Carol will have to do the bulk of the farm work. She struggles to find a water diviner to check for sources on the property. Then there is the matter of locating an elusive beekeeper who she hopes will place hives on the land in exchange for honey. But the harvest season is fast approaching.
