

## Consciousness, Theatre, Literature and the Arts 2013

The essays collected in this volume were initially presented at the Fifth International Conference on Consciousness, Theatre, Literature and the Arts, held at the University of Lincoln, June 15-17, 2013. The conference was organised on the basis of the success of its predecessors in 2005, 2007, 2009 and 2011, and on the basis of the success of the Rodopi book series Consciousness, Literature and the Arts, which has to date seen 34 volumes in print, with another 12 in press or in the process of being written. The 2013 conference and the book series highlight the continuing growth of interest within the interdisciplinary field of consciousness studies, and in the distinct disciplines of theatre studies, literary studies, film studies, fine arts and music in the relationship between the object of these disciplines and human consciousness. 35 delegates from 12 countries across the world attended the June 2013 conference in Lincoln; their range of disciplines and approaches is reflected well in this book.
