

Better Policing With Microsoft Office 2007

This book demonstrates how to use Access, Excel, Word, and PowerPoint to become more effective and efficient in law enforcement applications. The examples presented in this book concentrate on crime analysis and other police functions. The exercises solve real world problems in law enforcement, using fictional data. The book has been designed for a 40 hour seminar or a semester long college course. College or university faculty are encouraged to review the book for use in a crime analysis and other law enforcement application courses.
