

Criminal Tendencies

Criminal Tendencies is a true story about a young guy growing up in the suburbs, with dreams of making it big, by any means. When he discovered Drug Dealing, he realized that this is his path to riches. We follow the main character as he claws his way to the top, leaving behind murder and mayhem. One the way up the ladder, he forms his own Crew, using ex-military friends, to take care of business. He is one of the few outsiders to have a confrontation with the Mob, and walk away unscathed. He is eventually charged with two counts of First Degree Murder, we live each day with him as he deals with life in Jail, and becomes a famous Jailhouse Lawyer. The main character has a love interest, too bad she turned states evidence at his murder trial. He finds himself in one situation, after another, and yet he survives. This book is an action packed crime thriller, that will leave a lasting impression in your mind. You have never met anyone like this guy in your life.
