

# How to Beat the Sicilian Defence: An Anti-Sicilian Repertoire For White

The Sicilian Defence is by far the most popular chess opening. If you play 1 e4 as White, on average you are likely to meet the Sicilian in virtually every other game! You need to be prepared to face the Sicilian at all times, and a ready-to-use repertoire against it is an indispensable weapon. In this book, Gawain Jones confronts the challenge of meeting the Sicilian head on. He has constructed a comprehensive Anti-Sicilian repertoire for White, which is based on lines he has successfully employed at grandmaster level. These are sound, reliable options for White, but don't be fooled they also contain more than a drop of poison. Variations covered include the popular Kings Indian Attack, various Bb5 systems and weapons against Black's offbeat tries. A Grandmaster's repertoire against the Sicilian. Packed with new ideas and critical analysis. Highlights key tactical and positional ideas.
