

## Lil Poe: Drug Kingpin

A gritty, sexy story of the urban drug boom, and how it changed the lives of those it touched. A gripping expose about the explosion of crack cocaine in the inner city! I cant believe that this is the true story of the life of a teenager in Columbus, Ohio! The D.E.A. estimated, that at their peak, Lil Poe and his associates made almost \$100,000 a day, from their illegal drug sales. They were young innovators well before their time, and when the crack houses became too difficult to operate, they moved their drug operations to the street corners, spreading out their low-level distributors, and making it more difficult for police to penetrate their organization. As teenagers, Lil Poe and his crew seemed unstoppable. That is, until the Feds stepped in, and with the help of a lot of wire taps and some good old fashioned police work, they brought down Lil Poe and his entire organization. In the 1980s, the crack cocaine epidemic hit the streets of Columbus, Ohio like nothing it had ever seen before. Based on his teenage years, Poe tells the story about a part of Columbus, Ohios near East Side history that some may know very well, and others may not know at all. Its a tale of a rough, gritty life that some chose in order to survive, and others chose just for the lifestyle. Lil Poe takes you on a journey through his early life, as he rose through the ranks to become a teenage Drug Kingpin. From his early years as a member of the Columbus, Ohio street gang The Dozen Cousins, to his in-and-out stints in some of Ohios roughest juvenile prisons, and his early life as a teenage father, you will be amazed at this story of a young mans desire, ambition and motivation to have it all. He tells an articulate story of sex, drugs, and money, and how at the very young age of 19 years old, he ended up serving a 40 year prison sentence.
