

## Ramas Crown (Wayang Educational Package)

The world has been struck by multiple natural disasters (earthquakes, landslides, volcanic eruptions, tsunamis), causing great suffering for the common people. Various corrupt officials are taking advantage of the situation, and things are getting worse. Arjuna, the princely hero from the Pandhawa family, has vowed to do something to help. He hears of a gift of inspired leadership the gods are planning to hand down to a worthy mortal—the legendary King Ramas philosophy of leadership from generations past. As the antagonist family of Kurawa brothers also struggles for possession of the gods boon the story unfolds, including numerous secondary plots about characters from the Ramayana (Wibisana, Kumbakarna, Dasamuka) who have yet to have peace in eternity, and are still working out their destiny. Finally, Arjuna meets with an ascetic up in the mountains, and receives the philosophy of inspired leadership which will lead to a more peaceful future. This book contains English translations of the three Javanese performance transcripts found in Makutharama(classical, contemporary-interpretive, condensed) and includes extensive introductory material and detailed appendices.
