

CHILDRENS BIG BOOK OF ACTIVITIES

Children are the future of any nation, as we all know. They have a very sensitive mind and a brilliant IQ, right from their birth. The only thing is to develop their minds by exercising their brains on a regular basis in a systematic manner and Activity Books are a great help in doing this. The sole aim of this book, Childrens Big Book of Activities is to arouse the reading interest in kids between the age group of 3 to 7 years and attract them to go through the colourful pages and pictures of the book. While turning these attractive pages, they will come across amazing mazes, brain-teasing puzzles, interesting word searches, dot to dot drawing and colouring, finding the hidden elements, locating the difference, and many more interesting exercises which will certainly be an entertaining and a good learning exercise for them. The above mentioned brain-teasers and puzzles will not only help in sharpening the mental abilities of the tiny-tots, but also prepare them thoroughly for the higher classes in school. So go ahead, dear moms and dads, youll find that the book is ideal for your little darlings!
