

Our Lies Are Better Than Theirs

The seemingly never ending journey through waist high political crap, heavily laden with corporate cons and religious brainwashing. Laugh your socks off as the author lands another series of well aimed blows to the body of our corrupt and failing system. This time he is joined from across the pond by American lady Alison Green, adding her own take on the similarly failing system in the US. As with its predecessor, Arse About Face, this book is an hilarious stroll through the corruption and cobblers that envelopes so much of our lives, with a serious message to boot.
