

## The Lost Mind of Buffalo Morgan: Sick & Funny Comedy from Buffalos Vegas Show.

Let me tell you a story about the girl that broke my heart. I met her at a party 10 years later. And shes talking to about a dozen people about riding a mechanical bull. Remember when that was popular? So as I walk by, I hear her whiny little voice say, Oh, I tried it and I didnt like it. I stopped walking just long enough to say, Well, maybe you should try riding on top of the bull. I could hear them laughing even in the next room. Morale- If you have a chance for revenge, go for it. Sometimes sex gets to the point where you just rather do it yourself. Just knock it out and move on with your life. Most guys do the right hand stranglehold. Thats why Im trying to start a campaign to shake hands with the left hand. Its a lot easier to get a guy to wash his hands then to stop masturbating. Men dont know what women think about sexually. Even masturbating. When a guy thinks about a woman relaxing herself, we think a locked bathroom door, bubble bath, a few candles, and Barry White softly in the background. When I was a teenager I actually went to a Catholic School. I was in the library looking for a book on Babe Ruth. As I walked by a shelf of books, a title jumped out at me. Sex and You. I left little skid marks as I stopped to look at it. So with my Babe Ruth book covering this ancient porn novel, I read my little heart out. And I got really paranoid whenever someone got within 50 feet of me.. Go away. By the time I left the library, I had a severe porn buzz going. I cant believe people really do that. I remember I didnt believe some of it. Like the part where it said when a man has an orgasm, only about a tablespoon comes out. As a future scientist, I felt I had to check that theory out. So one weekend, I had some free time so I whipped out a spoon, whipped out a fantasy and went to work. Well, when the work was done, I looked down and my spoon was empty apparently it ricocheted off the spoon and hit a guy in the next pew
