

The Mystical Gaze of the Cinema: The Films of Peter Weir

Magical, out of this world, an experience you'll never forget: Peter Weir's films have enthralled audiences around the globe. Whether in iconic Australian works such as *Picnic at Hanging Rock* and *Gallipoli* or international mainstream thrillers such as *Witness*, Weir has deliberately created mystical movie experiences. Modern cinema studies is used to dissecting films on the basis of gender, class or race: now, for the first time, Richard Leonard shows that a mystical gaze also exists and is exercised in the secular multiplex temples of today. *The Mystical Gaze of the Cinema* is a meticulous and accessible book that uses a psychoanalytic approach incorporating the insights of Jung, film theory and theology to break new ground in what continues to be a hot topic in cinema studies: the spectator/screen relationship. Leonard provides a fresh and innovative perspective on what happens when we behold a film.
