

Richard and Linda Thompsons Shoot Out the Lights (33 1/3)

In the fall of 1980 Richard and Linda Thompson (of Fairport Convention fame) had recently been dumped from their record label and were on the verge of divorce. Somehow they overcame these miserable circumstances and managed to make an album considered by many to be a masterpiece. Shoot Out The Lights puts the album-from the personal history driving the songs, to the recording difficulties they encountered and the subsequent fall-out-in context. This is a brilliant, emotional book about a brilliant, emotional album.
