

# The Art of Tuning: A Self-Guided Manual for Piano Tuning, Design, Action Regulation, and Repair from mid-19th Century France

Claude Montals THE ART OF TUNING is the first comprehensive text on piano tuning, construction, and repair ever written. Filled with historical details concerning the pianos of the mid-19th-century, The Art of Tuning documents the technology, tools, and techniques used during the most vibrant period in the development of the pianoforte. This translation by the piano technician and pianist Fred Sturm RPT masterfully preserves the direct and approachable style of the original.
