

The Golden Mountian: Beyond the American Dream

A journey back in time, The Golden Mountain is the gripping story of four generations of Chinese women who live and die under the restrictions of their culture--except for one, the author. Her story tells of growing up in Hong Kong and of her transition to New York City where she struggled to meld the American dream with her ethnic background. Finally, at age fifty, she dares to move into the present and understand the true nature of dreams and what it means to live. Spanning continents, generations, immigrations, cultural changes, and social movements, The Golden Mountain is the deeply inspiring tale of a woman claiming her power.
