

## The Little Book of the 1960s

The Little Book of the 1960s is a look back at the swinging decade from someone who was there, in mind, body and spirit. But this is nostalgia with a difference. This is nostalgia based on quirky facts, on fascinating data, with a discerning eye on the bizarre, the frivolous and the funny. It is a striking book of trivia in bite-sized pieces for everyone who was there, or wishes they were. The sights, the sounds, the lifestyle, the whole 1960s experience can be relived through the pages of this book, but be warned - you'll need a sense of humour. Pick and choose your subject - it's all here. A book that can be dipped in to time and time again to reveal something new about the people, the fashions, the scandals and the enduring fascination of a decade that was truly the most colourful of all.
