

## Real America

A court system and Congress which totally ignores the Constitution and basic fairness of the American people. A totally inept Congress which cannot grant the American people even the most basic form of free medical coverage after over 60 years of broken promises even though every other major country has it. Police forces and judiciaries more crooked than the people they put in jail -- a full quarter of whom are innocent. Lifelong promised pensions stolen from workers literally hours before retirement. Against these and a myriad of other injustices, the American people bravely and decently try to live their daily lives.
