

Throw Away Dogs: An Inside Look at Drug Cartels Today

A read that proves truth is stranger than fiction. A frightening trip into the human psyche, from the United States into Mexico, France, Bogata, Macao & Hong Kong. Chinaboy, Manuel, Martine, & Possum will take you on a rollercoaster ride into the unknown that will leave you breathless. A gut-wrenching story you will remember for a long time. This is a novel you cant put down. Its balance of tragedy & humor is a thin & precarious line that is unusual, to say the least. Violence, brutality & steamy sex are beautifully combined with courage, love & tenderness. They are but a few of the raw emotions lived by its larger-than-life characters, like: Manuel: Beautiful Indio in Armani. Berkely eductated attorney, and enforcer for the deadly Mexican Mafioso. Chinaboy: Unpredictable, Unconrollable, and Unstoppable. Former undercover U.S. drug agent, running a vast smuggling empire from the jungles of Yucatan to the Golden Triangle. Martine: Golden Boy, a dark star orbiting a world of raw power and unimaginable wealth. Possum: Born to love... destined to lose. The proof is in the reading. Youll love it or hate it, but you wont forget it...
