

Unfaithful Music & Disappearing Ink

Born Declan Patrick MacManus, Elvis Costello was raised in London and Liverpool, grandson of a trumpet player on the White Star Line and son of a jazz musician who became a successful radio dance band vocalist. Costello went into the family business and had taken the popular music world by storm before he was 24. Costello continues to add to one of the most intriguing and extensive songbooks of the day. His performances have taken him from a cardboard guitar in his front room to fronting a rock and roll band on your television screen and performing in the worlds greatest concert halls in a wild variety of company. Unfaithful Music describes how Costellos career has somehow endured for almost four decades through a combination of dumb luck and animal cunning, even managing the occasional absurd episode of pop stardom. The memoir, written entirely by Costello himself, offers his unique view of his unlikely and sometimes comical rise to international success, with diversions through the previously undocumented emotional foundations of some of his best known songs and the hits of tomorrow. The book contains many stories and observations about his renowned cowriters and coconspirators, though Costello also pauses along the way for considerations on the less appealing side of infamy. Unfaithful Music & Disappearing Ink is destined to be a classic, idiosyncratic memoir of a singular man.
