

Chess Strategy #3 Win! With The Greek Gift Sacrifice (Strategic Chess)

In this third part of the series we begin by reviewing the basic ideas associated with sound opening play, since if you emerge from the opening phase of the game having lost space and time its an uphill struggle to find a successful middlegame strategy. You think you already know all about this? Well, surprise, surprise...Your aim in the opening isnt piece development, central control, king safety, posting your pieces on strong squares, uniting your rooks, moving your queen from the first rank and opening up lines of attack. No, it isnt. Then we switch our attention and look in detail at the strategic requirements of the classic Greek Gift sacrificial attack, highlighting the key thing that has to be present if you want to avoid disaster. Theres an illustrative Grandmaster game to round things off.

Win a pawn, park another piece on an awesome square, then you have it wont hurt you if you study some endgames and strategies. Perhaps aside from tactics, it is the strategy and endgame study that @MidnightRhino, Bxh7 sacrifice? Thats the Greek gift and yes I saw that in some problems here. **Tactics Rating related to other rating - Chess Forums** - Apr 12, 2017 Black has 3 options: Kg8, Kg6, and Kh6 (not going to count Kh8 as a serious move).
