

You Wanna Laugh, or What?

Growing up in Brooklyn, telling jokes was like a pastime. They are a way to break the ice with a new acutance, liven up a party, or just have fun hanging out with friends. This book is an accumulation of years of street jokes. Some of these jokes offend religion, race and gender. They are not intended to offend anyone. Their sole purpose is to make people have fun and laugh. I genuinely hope that these jokes make you laugh when you read them, when you tell them to your friends or just when you think of them. Remember laughing is good for your overall health. For some strange reason when you laugh good things happen to you. There is an old saying; when you laugh everyone laughs with you, but when you cry, you cry alone, so read this book and start laughing.
